Eco-Throttle

The Honda EU30 is Generator also features an Eco-throttle which adjusts the engine speed to meet the load demand. This increases fuel economy whilst also reducing noise as the engine is not required to run at full capacity unnecessarily. It features a microcomputer-controlled sinewave inverter that guarantees commercial-quality electricity – ideal for use with frequency-sensitive electrical equipment such as computers. And just like all Honda generators, the Honda EU30 is Generator starts first time, every time with convenient electric start and recoil start back-up. Performance & Peace of Mind

The Honda EU30 is Generator is whisper-quiet, operating from 52dB(A)* / 65dB(A), and at only 59kg, is one of the lightest generators in its class. It runs on unleaded fuel so you'll never have to mix oil and petrol again. Environmentally friendly, the Honda EU30 is generator emits lower emissions & less noise, and uses less fuel than its competitors. The engine is protected via a low oil alert system, and it will give you up to 20* hours of continuous operation on a full fuel tank. Honda's World-Renowned Technology

The generator is Parallel Connection capable. This feature allows two Honda EU30 is' to be quickly and easily linked using a special parallel connection cable to double your output to 6Kva. With electric-starting and enough power to be used in a wide range of home, recreational and professional uses, the Honda EU30 is Generator incorporates all of Honda's portable power technology. With 12 Amp/12 Volt DC and a maximum of 3000W/240 Volt AC, the Honda EU30 is Generator can run appliances and charge batteries simultaneously. Warranty

Honda's comprehensive warranty structure covers the Honda EU30 is Generator for 4 years (domestic) and 1 year (commercial). You're also backed by a network of more than 450+ authorised dealers across Australia. You'll never be alone with a Honda EU30 is Generator. When you're after reliable power, it's the best choice you can make. Engine
