Description

For the first time in a Honda generator, the Honda EU70is Generator is coupled with an advanced Electronic Fuel Injection system greatly increasing fuel efficiency. In fact, the Honda EU70 will run for up to 18 hours on a single tank of fuel which will help your back pocket. It also features Honda's sine-wave inverter technology for smooth, high quality power flow, enabling the Honda EU70 to safely provide power for frequency and voltage fluctuation-sensitive equipment such as laptop computers and communications equipment whilst being ideal for home backup power. Unlike many noisy generators, the Honda EU70 uses an innovative separate triple chamber construction for low noise operation of only 52dB(A)*, making it the quietest generator in its class.EASY TO USE

For simple operation and diagnostics, the Honda EU70is Generator features Honda's 'i-Monitor' liquid crystal display which provides operators with information about the generator's performance. Combined with a low oil alert system to protect its engine, and easy maintenance, you'll benefit from long term cost savings. And the Honda EU70 runs on unleaded fuel in a sealed tank which allows the fuel less chance to go stale from sitting idle for long periods. The fuel injection system also eliminates any messy fuel gunk which may be stuck in carburettor models meaning less hassle and more time for it to be put to work. Moving, storing and transporting the Honda EU70 is made simple with a Two Push 'H' shaped fold down handle and large diameter wheels. This ensures customers who need the generator for multiple purposes can move it with ease.EFFICIENT POWER

It starts first time, every time with convenient electric push button start and back-up recoil start, helping delivering reliable and 'better than commercial quality' electricity. The Honda EU70is Generator has a maximum output of 7000W/240 volt AC, and is relatively lightweight for easy transportation (118kg).WARRANTY

A 4-Year Domestic Warranty and 12-Month Commercial Warranty will mean you can operate your Honda EU70is Generator with peace of mind when you're on the job. And with 450+ authorised Honda dealerships spread around Australia, you'll never be too far away from help, should you run into trouble.ENGINE
