Description

Honda's F220 features the impressive GXV57 4-Stroke Honda engine, which uses less oil and fuel and produces less noise and emissions than the competition. Featuring a 545mm Tilling Width and a 280mm Tilling Depth with Multi-step adjustable handlebars, get the job done with the perfect Honda finish, every time.

-

4 Year Warranty

Ready to Plow

Honda leads the world with revolutionary mini 4-stroke engines that deliver more power and use less oil. With their auto-decompression, electronic ignition and anti-flood primer system, Honda Tillers start first time, every time, year after year. Superior engineering means Honda Tillers produce less noise and smoke and with their ultra-compact, lightweight design, Honda Tillers are easier to handle and will keep you working longer with less fatigue.

Performance/Usability

Like so many other Honda Power Equipment products, the Honda F220 Tiller starts first time, every time with Honda's famous one pull easy start system. Its lightweight design is the result of decades of Honda Power Equipment's technological advancements, making it ideal for confined areas. What's more, the Honda F220 Tiller runs on unleaded fuel so you'll never have to mix oil and petrol again - great for the environment and for the soil that you're tilling - why would you want to spew 2-stroke smoke into the same soil you're going to pull your vegetables from in a few months' time? Warranty

The peace of mind provided by a 4 Year Domestic Warranty & 1 Year Commercial Warranty helps make the Honda F220 Tiller an even more impressive package. 450+ authorised Honda dealers around Australia are also on hand to keep your Honda F220 Tiller serviced and running smoothly. So when you're looking for best-in-class performance in a tidy package, the Honda F220 Tiller is just what the doctor ordered.
