## Description

Honda’s HHH36 Battery Hedgecutter is ideal for both the residential and commercial user. It delivers optimum performance via its brushless motor, leaving a perfect finish from Swiss steel blades that effortlessly slice through bushes, plants and hedges.

- 600mm Dual Blade with 35mm spacing
- 99 dB(A)
- 36v Battery with brushless motor
- 5 kg
- 180 degree adjustable handle
- Skin only. Battery & Charger sold separately

Powerful Performance

By developing a new generation of high-capacity batteries and a powerful, 36-volt electric motor, Honda’s engineers ensured that the HHT36 Battery Hedgecutter offers superior cutting performance just like the Honda standard! Honda’s new generation Battery Hedgecutter boasts innovative battery technology and uncompromised cutting performance for the toughest applications. Get premium performance without the headache!Maximum Versatility, Minimum Vibration

By combining long-lasting battery technology with a powerful electric motor, together with a rotating rear handle and a perfect weight distribution, Honda’s new HHH36 Hedgetrimmer is designed to move smoothly in the most challenging conditions. So take the headache out of cutting the hedges with a low vibration level of 1.9m/s2. It really takes the edge off!Swisse Steel Blades

Get through the most stubborn branches with Honda’s HHH36 Hedgecutter, featuring 600mm Swiss-made hardened-steel double sided roughing blades. With variable speed settings, you can cut through hedges with a blade speed of up to 3000 cuts/min. Better yet, the HHH36 features stall free operation via its intelligent auto release so if you jam the blades, they will instantly stop and release for your safety and the protection of the product.Universal Battery System

Powered by Honda’s Universal Battery System, you can use either of the three available batteries: 4Ah, 6Ah and 9Ah across the HHH36 Hedgecutter and Honda’s entire Battery product range. Ensuring the longest possible run time without compromising power, the Thermo-Smart technology continuously monitors the voltage and thermal performance of every cell. What’s better is that when using the 9Ah battery, you can operate the HHH36
