Description

Used for leisure, back-up power or for the job site, the EU22i Generator really packs a punch! So whether you're going camping, you lose power at home, or need it on the work site, the EU22i is packed with features so you'll never be left in the dark!

-

2200 Max output

-

Inverter technology

-

Fuel tap to allow unit to run dry for storage

-

Lightweight 21kg

-

Built in Eco Throttle for greater fuel efficiency

4 Stroke Advantage

The Honda EU22i delivers better than commercial quality electricity, it has greater fuel efficiency via the built-in Eco-Throttle, increased diameter of oil filler for improved draining & catching of oil and improved recoil starter handle with new metal guard.

It has Honda's advanced 4-Stroke GXR120 engine, which is 20% larger in capacity than the EU20i Generator. The GXR120 has a maximum output of 2200W and up to 8 hours of continuous operation on Eco-Throttle+, 4 litre fuel tank and whisper-quiet operation. Performance/Usability

The EU22i starts first time every time with Honda's reliable one pull easy start system - your back will thank you!

It's environmentally friendly with low emissions, less noise and low fuel consumption than its two-stroke counterparts, and can run up to 8* hours of continuous operation on a full fuel tank.

*With eco-throttle switched on at 1/4 output

Powerful enough to be used in a wide range of home, recreational and professional uses, the EU22i is backed by Honda's extensive warranties.

That's a 4-Year Domestic Warranty, a 12-Month Commercial Warranty, and the support of Honda's 400+ authorised dealerships nation-wide.

ENGINE GXR120

DISPLACEMENT 121 (cc)

IGNITION SYSTEM Transistor

OIL ALERT Yes
