GX240 Engine

- 

3 forward gears & 1 reverse

- 

4 Year Warranty

Performance/Usability

Featuring 3 forward gears & 1 reverse gear, as well as a deadman clutch for safety and a 500mm tine width, the Honda FRC800 Tiller comes standard with the features that Australian farmers and commercial operators want. It's powered by the gutsy, ever-reliable Honda GX240 4-Stroke Engine that draws on decades of Honda's technological advancements to offer commercial-grade power. It's environmentally friendly and provides low emissions, less noise and low fuel consumption compared with the competition. 4-Stroke Engine

Honda leads the world with revolutionary mini 4-stroke engines that deliver more power and use less oil. With their auto-decompression, electronic ignition and anti-flood primer system, Honda Tillers start first time, every time, year after year. Superior engineering means Honda Tillers produce less noise and smoke and with their ultra-compact, lightweight design, Honda Tillers are easier to handle and will keep you working longer with less fatigue. Warranty

The Honda FRC800 Tiller features a 4 year Domestic Warranty and 12 month Commercial Warranty, meaning that you're backed by Honda to get the most out of your investment. It runs on unleaded fuel so you'll never have to mix oil and petrol again. That results in a healthy work environment, and cleaner air for you to breathe. And with a dealer network of 450+ authorised, independent servicing dealers around Australia, you've got all the support you'll ever need. Specifications
