Description

Perfect for domestic applications and light use, the HondaGP160 engineis designed to power those odd jobs around the home. From pressure washers to water pumps to generators, it will help get the task done reliably and on time. Of course, if it's more power you're after, including for commercial applications, it might pay to compare it with the flagship HondaGX160.Great Fuel Efficiency

The HondaGP160's Precision Camshaft design offers precise valve timing and optimal valve overlap for better fuel efficiency. It draws on decades of Honda engineering - the Honda GX160 in particular - with its OHV design, delivering increased efficiency and optimal power transfer for where you need it. A success overseas, its introduction into Australia further reinforces Honda's reputation as a company that helps people get things done.Easy to Use

A ball bearing-supported crankshaft and precision engineered components result in greater stability and lower vibration for you, no matter what the application. The use of lightweight, noise-reducing materials and a forged steel crankshaft & rigid crankcase results in an exceptionally quiet engine that incorporates a large capacity, multi-chamber exhaust system. And with a simple Throttle Control, large Fuel Tank and Automotive Type Fuel Cap, Dual Oil Drains and Fills, an easily accessible Spark Plug and Recoil Starter, the HondaGP160 engineis there to help you out.Back-Up & Warranty

Available from over 400 independent, authorised Honda Power Equipment dealers Australia-wide, if you're looking for a HondaGP160 enginethen there are plenty of Honda folk around who will gladly help you out. The HondaGP160 enginecomes standard with a 1-year Domestic Warranty and with proper maintenance it will last you many years!
