Description

The Honda GSV190 engine is a smooth operator, perfect for powering everyday products like Commercial & Domestic Lawnmowers. Agricultural equipment, too, is also found across Australia with a Honda GSV190 engine offering the power and reliability that Honda is known for. With quiet, smooth performance provided by an internal timing belt and precision engineered and machined components, no matter how you use it, the Honda GSV190 engine will work quietly for you. Compact & Lightweight

The Honda GSV190 engine offers the best of two worlds. It's built for higher durability, with features like a cast iron cylinder liner and three-piece oil control. And the benefits of a lightweight (it's the lightest engine in its class), durable, quiet Overhead Cam design mean it's an excellent choice for demanding homeowner applications and light commercial equipment alike. Honda's engines are Emissions compliant, with applicable models meeting the strictest world standards. They go a long way to ensure Honda leaves Blue Skies For Our Children. Proven Reliability

A Ball Bearing-supported crankshaft and a dual element air cleaner are incorporated into the Honda GSV190 engine for an increased work life. A Dual-Lube System provides superior engine lubrication, and it also harbours a proven lifetime timing belt design. You're in safe hands! And with an easily accessible oil drain & fill and spark plug, and an Auto Choke System available, the Honda GSV190 engine is easy to use and maintain. 2 Year Domestic & Commercial Warranty

A horizontal cross-flow intake port is incorporated in the design to smooth the flow of fuel, and electronic ignition & automatic mechanical decompression make for easy starting. And, being a Honda, the Honda GSV190 engine is covered by Honda's comprehensive 2 Year Domestic and Commercial Warranty. Throw in a network of over 400 authorised Honda dealers around Australia, and you've got all the back-up you should ever need! Specifications

MODEL GSV190

TYPE 4-stroke, overhead cam, single-cylinder, vertical shaft

BORE & STROKE 69 x 50 mm (2.7 x 2.0 in)

DISPLACEMENT 187 cm³ (11.4 cu in)

COMPRESSION RATIO 8.5:1

NET POWER 3.8kW (5.1HP) at 3,600 rpm

CONTINUOUS RATED POWER 2.6 kW (3.5 HP) at 3000 rpm

MAXIMUM NET TORQUE 11.3 Nm (8.3 lbs ft) at 2,500 rpm

IGNITION SYSTEM Transistorised magneto ignition

STARTING SYSTEM Recoil

COOLING SYSTEM Forced-air

PTO SHAFT ROTATION Counter-clockwise (from P.T.O. side)

FUEL CONSUMPTION AT RATED POWER 1.3 L/hr at 3000 rpm

RECOMMENDED FUEL Unleaded

LUBRICATION SYSTEM Forced Splash

RECOMMENDED OIL 10W/30 API SG

OIL CAPACITY 0.55l

FUEL TANK CAPACITY 0.93l

DIMENSIONS 371mm x 343mm x 368mm

DRY WEIGHT 13.0kg

RRP From AUD \$418.84 (includes GST)
