Description

The Honda GX100 engine is frequently used by customers in commercial lawn and garden equipment. It's also used to power Construction/Industrial Equipment, as well as in Agricultural settings - including the powering of Water Pumps. Fuel Efficient, High Output Operation

The GX100's Precision Camshaft design offers precise valve timing and optimal valve overlap for better fuel efficiency. It draws on decades of Honda engineering with its OHV design, delivering increased efficiency and optimal power transfer for where you need it. And the GX100 incorporates a high compression ratio for better fuel efficiency than its competitors. Smooth Operator

A ball bearing-supported crankshaft and precision engineered components result in greater stability and lower vibration for you, no matter what the application. The use of lightweight, noise-reducing materials and a forged steel crankshaft & rigid crankcase results in an exceptionally quiet engine that incorporates a large capacity, multi-chamber exhaust system. And with a sophisticated air intake system, Oil Alert, large fuel tank, easily accessible spark plug and Cast Iron cylinder sleeve, the GX100 will work as hard as you with minimal fuss - day in, day out. 3 Year Warranty

The GX100, just like the entire GX Engine range, is covered by an extensive Honda 3 Year Warranty. That 3 years is relevant to both Domestic and Commercial applications, so you can rest assured with the knowledge that your GX100 is built to last. And should there be any issues, a nationwide network of 450+ authorised Honda dealers are there to back you up with all your parts & service requirements. SPECIFICATIONS

MODEL GX100

TYPE 4-stroke, overhead valve, single-cylinder, horizontal shaft

BORE & STROKE 56 x 40 mm

DISPLACEMENT 98 cm³

COMPRESSION RATIO 8.5:1

NET POWER 2.1kW (2.8HP) at 3,600 rpm

CONTINUOUS RATED POWER 1.7kW (2.3HP) at 3,600 rpm

MAXIMUM NET TORQUE 5.7 Nm at 2,500 rpm

IGNITION SYSTEM Transistorised magneto ignition

STARTING SYSTEM Recoil Starter

COOLING SYSTEM Forced-air

PTO SHAFT ROTATION Counter-clockwise (from P.T.O. side)

FUEL CONSUMPTION AT RATED POWER 0.88 L/h at 3,600 rpm

RECOMMENDED FUEL Unleaded

RECOMMENDED OIL 10W/30 API SG

OIL CAPACITY 0.40l

FUEL TANK CAPACITY 0.77l

DIMENSIONS 295 x 304 x 402 mm

DRY WEIGHT 10.63kg

RRP Please contact your local Honda dealer for a great deal. <http://dl.hondampe.com.au/>

SPECIFICATION

LUBRICATION SYSTEM Splash
