Description

The HondaGX200 engine is used in all sorts of applications. From Pressure Washers and Construction/Industrial equipment, to Tillers/Cultivators, Generators and Commercial Lawn & Garden Equipment, it can be found working hard all over Australia. Agricultural Equipment, Water Pumps, and even Go Karts, are powered by the HondaGX200 engine. Fuel Efficient, High Output Operation

The HondaGX200's Precision Camshaft design offers precise valve timing and optimal valve overlap for better fuel efficiency. It draws on decades of Honda engineering with its OHV design, delivering increased efficiency and optimal power transfer for where you need it. And the HondaGX200 engine incorporates a high compression ratio for better fuel efficiency than its competitors. Smooth Operator

The HondaGX200's ball bearing-supported crankshaft, cast iron cylinder sleeve, Helical cut gears and precision engineered components result in greater stability and lower vibration for you, no matter what the application. The use of lightweight, noise-reducing materials and a forged steel crankshaft & rigid crankcase results in an exceptionally quiet engine that incorporates a large capacity, multi-chamber exhaust system. And with a simple Throttle Control, large Fuel Tank and Automotive Type Fuel Cap, Dual Oil Drains and Fills, an easily accessible Spark Plug and Heavy Duty Recoil Starter, the HondaGX200's features go on and on. 3 Year Warranty

The HondaGX200 engine, just like the entire GX Engine range, is covered by an extensive Honda 3 Year Warranty. That 3 years is relevant to both Domestic and Commercial applications, so you can rest assured with the knowledge that your HondaGX200 engine is built to last. And should there be any issues, a nationwide network of 450+ authorised Honda dealers are there to back you up with all your parts & service requirements. Specifications
