Description

Honda's V-Twin range of engines are the cream of the crop, powering Pressure Washers, Water Pumps and Commercial Lawn & Garden Equipment throughout Australia. The HondaGX630 V-Twin engine can also be found in Tillers/Cultivators and other Agricultural Equipment, Generators as well as many different applications. And if it's something more hardcore that you need power for, the Honda GX630 V-Twin engine is also used in the Forestry and Construction/Industrial industries. Fuel Efficient Operation

The fuel economy of the HondaGX630 V-Twin engine is similar to fuel injection, with the simplicity of carburetion ensuring that running this unit is easy on both your pocket and the environment. It features a digital CDI ignition system with variable timing, as well as a forged steel crankshaft and insert style rod bearings for efficient operation. There's also a rev limiter to protect against damage from over-revving. A hemispherical combustion chamber delivers rapid combustion, and it features Pressure fed crankshaft bearings. Add a two barrel inner-vent carburetor for more precise fuel metering and a 9.3:1 compression ratio, and you'll be generating high power output without the need for premium fuel. Proven Reliability

The HondaGX630's high capacity pump facilitates consistent oil delivery, and a handy Oil Alert will keep you posted if you look like running dry. There's a dual cylindrical air filter, and a large diameter air intake on board for superior cooling. The result is a long-lasting, high-performing and reliable engine. 3 Year Warranty

Don't forget, all Honda V-Twin Engines are covered by a Honda 3 Year Domestic & Commercial Warranty. Honda has a network of over 400 authorised dealers around Australia, so should you need parts, accessories, or maintenance done, you're not alone. All just extra reasons for you to Love Your HondaGX630 V-Twin engine. Specifications
