Description

With its ultra-quiet GX25 mini 4-stroke engine providing effortless power, the HondaHHH25D Hedgetrimmer is the perfect tool for keeping your garden - or that of your clients - neat and tidy. A unique 4-way Anti Vibration Handle reduces vibration while the ergonomical 3-way Rotational Rear Handle ensures precise trimming and user comfort every time. Unlike its 2-stroke rivals the HondaHHH25D Hedgetrimmer - just like all Honda Power Equipment products - runs on regular unleaded fuel so you'll never have to mix oil and petrol again. Your wallet will thank you and so will the environment. Performance & Precision

TheHHH25D features a lightweight design (just 6.6kg dry weight) and a unique inclinable 4-Stroke engine that allows you to use it - and store it - at any angle. Precision trimming is easy with the use of the Hedgetrimmers's four-way handles, and added comfort is ensured with Honda's anti-vibration technologies included. Of course, you'll be craving the power that Honda is known for. In theHHH25D, this power is supplied via a highly responsive accelerator pump. Size & Power

After you experience the ease of starting the Hedgetrimmer courtesy of Honda's famous one-pull easy-start system, you will feel empowered - even on the biggest jobs - by the double-sided, 720mm-long cutting blade. Despite this unbridled power, safety is never compromised at Honda and theHHH25Dis no exception. A two-motion throttle trigger ensures the blades wait until you're ready, and safety is further improved with a double-sided blade guard. Warranty

Of course, no Honda Power Equipment product is complete without a resoundingly strong Warranty. TheHHH25D features a 4-year Domestic Warranty and a 1-year Commercial Warranty, giving you added peace of mind no matter what job you're doing. It's also backed by Honda's network of 450+ authorised dealers Australia-wide, who will be more than happy to help you out. Specifications
