Description

The Honda Buffalo family also includes two of Australia's best in class mowers, the HRU196 Buffalo Pro Engine Brake Push mower and the HRU196 Buffalo Pro Blade Brake Push mower. Assembled in Australia and ideal for the Aussie contractor, they are both built tough to handle all environments and conditions.

-

Commercial Push Mower

-

19" Cast Aluminium Deck with 11 height adjustments

-

Engine Brake with GXV160 Honda engine & manual throttle

-

4 Swingback blades

-

54 litre Polymer catcher

Introducing The HRU196 Buffalo Pro Engine Brake

Ideal for medium to large lawns, the HRU196 Buffalo Pro has a high-quality alloy cutting deck.

The durable 54-litre Polymer catcher means less stopping and more mowing. Using the mulching function on the HRU Buffalo Premium is the most efficient way to fertilise your lawn. To finish the job off, the swing back blade cutting system delivers a professional finish while improving the quality of your lawn. Mow-Safe Technology

Bridging the gap between efficiency and safety, the HRU196 Buffalo Pro includes engine brake technology that stops the engine within three seconds of the operator releasing the handle. This feature means you can easily walk away from the mower as needed to clear away any obstacles, empty the catcher or take a quick break. 4-Stroke Technology

Honda goes to extraordinary lengths to ensure best-in-market quality. Our legendary 4-Stroke engines are no exception. Avoid messy oil and fuel mixing and enjoy a reliable, starts-first-time engine and whisper quiet operation. Warranty

The HRU Buffalo Pro Mower is backed with Honda's 4-year domestic warranty. If you have any queries about your Honda product or would like more information, we have a network of 450+ authorised dealers Australia-wide who will be more than happy to help you out. As a contractor, you're ensured peace of mind with Honda's 3-year engine commercial warranty.
