Description

You're looking at one of the most advanced lawnmowers Honda has ever built. Assembled in Australia, the HRU19 Buffalo features the best cutting and mulching performance seen on a Honda mower that has earned its premium status. Ideal for medium sized lawns and the residential user, its tough alloy deck is designed to withstand the harsh Aussie conditions.

-

4 Swingback blades

-

54 litre Polymer catcher

Introducing The HRU19 Buffalo Premium

The Honda HRU19 Buffalo Premium is ideal for medium sized lawns featuring the all new GCV170 4-stroke engine. Weighing only 31kg, it's easy on the arms so you can go harder for longer. We've increased the chute width to dispose of more grass more quickly. The Buffalo truly is the best of the breed.

The durable 54-litre Polymer catcher means less stopping and more mowing. Using the mulching function on the Honda HRU Buffalo Premium is the most efficient way to fertilise your lawn. To finish the job off, the swing back blade cutting system delivers a professional finish while improving the quality of your lawn. Mow-Safe Technology

Bridging the gap between efficiency and safety, the Honda HRU19M2 includes engine brake technology that stops the engine within three seconds of the operator releasing the handle. This feature means you can easily walk away from the mower as needed to clear away any obstacles, empty the catcher or take a quick break. 4-Stroke Technology

Honda goes to extraordinary lengths to ensure best-in-market quality. Our legendary 4-Stroke engines are no exception. Avoid messy oil and fuel mixing and enjoy a reliable, starts-first-time engine and whisper quiet operation. Warranty

The HRU Buffalo Premium Mower is backed with Honda's 4-year domestic warranty. If you have any queries about your Honda product or would like more information, we have a network of 450+ authorised dealers Australia-wide who will be more than happy to help you out.
