Description

Honda's powerful WB20XT is a portable 2" volume pump with a 32m head that delivers a maximum capacity of 620 litres per minute. It is the pump for all your needs. Drawing on decades of engineering advancements, the Honda GX120 engine that powers the WB20 ensures easy starting, easy usage, outstanding fuel economy, low emissions and long-lasting durability.

Legendary Honda Pumps

Honda Water Pumps offer a level of uncompromising performance to a wide variety of water transfer applications. Designed for easy starting, priming and dependable service, used throughout the world for over 20 years, Honda water pumps have earned a reputation for unsurpassed reliability and performance. These pumps are known for their durable construction, quality engines and easy portability; features that apply to all categories of Honda pumps. Performance/Usability

Like most Honda Power Equipment products, the Honda WT20 Trash Pump starts first time, every time with Honda's famous one pull easy start system. It's powered by Honda's flagship GX160 4-Stroke OHV engine and runs on unleaded fuel, so you'll never have to mix oil and petrol again. That makes the Honda WT20 Trash Pump an environmentally friendly Trash Pump with low emissions, less noise than the competition and low fuel consumption. Warranty

All Honda pumps come with an impressive 4 Year Domestic Warranty and 1 Year Commercial Warranty, giving you added peace of mind. When combined with a network of over 450 authorised independent dealers around Australia, you've got some serious back-up with a Honda pump. There's no question; if you're after a quality investment that won't let you down, the Honda WT20 Trash Pump is just the pump for you. Specifications
