Description

The HondaWT30 Trash Pumpis the ideal addition to any construction sites, mining sites, storm drains where water is mixed with debris and you need a premium pump. As a reliable 3" Pump, it has been designed to work hard day in, day out, delivering up to a MASSIVE 1,300 litres per minute. With maximum suction head of 8m and maximum total head of 27m, theHonda WT30 Trash Pumphas plenty of reach, and when paired with 60 years of Honda's engineering experience you know you're dealing with the best in the business.Over 20 Years of Development

Honda Water Pumps offer a level of uncompromising performance to a wide variety of water transfer applications. Designed for easy starting, priming and dependable service, used throughout the world for over 20 years, Honda water pumps have earned a reputation for unsurpassed reliability and performance. These pumps are known for their durable construction, quality engines and easy portability; features that apply to all categories of Honda pumps. Performs Under Pressure

Like most Honda Power Equipment products, theHonda WT30 Trash Pumpstarts first time, every time with Honda's famous one pull easy start system. It's powered by Honda's jaw-dropping GX240 4-Stroke OHV engine and runs on unleaded fuel, so you'll never have to mix oil and petrol again. These technologies make the HondaWT30 Trash Pump an environmentally friendly Trash Pump with low emissions, less noise than the competition and low fuel consumption.Warranty

All Honda pumps come with an impressive 4 Year Domestic Warranty and 1 Year Commercial Warranty, giving you added peace of mind. When combined with a network of over 450 authorised independent dealers around Australia, you've got some serious back-up with a Honda pump. There's no question; if you're after a quality investment that won't let you down, the HondaWT30 Trash Pumpis just the pump for you.Specifications
